

## *Dyson's next big invention*

*You might have heard of Dyson for their vacuum cleaners.  
But did you know they invented their own ventilators in just ten days,  
to help hospitals treat more Coronavirus patients*

---

You're the head of Dyson for the week. We want you to design a new gadget that will help people get better from, or prevent, an illness that you choose.

Thinking caps on – good luck!
